

PHIRE REFLEX

THE FIRST FULLY AUTOMATIC PERFORATING SYSTEM

Easy to implement. Easy to learn. Easier to use.

Wellmatics has changed what is expected of a gun system by providing one that is **delivered to the wellsite** ready to go. Simply take it out of the box, screw one end of the gun to the other, and the **PHIRE REFLEX** system takes care of the rest; with its patent pending, **self-arming mechanism**. This **fully disposal** system, that is brand new with each use, has **no redress** or reused parts **eliminating human error** at the wellsite.

ADVANCE YOUR PERFORMANCE

DIAMETERS	3.25 in.				
SHOT PHASING	0°	60°	90°	120°	180°
SHOT DENSITY	Customizable				
PRESSURE RATING	20,000 PSI				

THE WELLMATICS DIFFERENCE

Having a proven perforating gun system can make or break your success at the wellsite. Beat the challenges of logistics, personnel, and consistent service quality with PHIRE REFLEX. Automatic functionality allows streamlined operations that transports easily, is simple to manage while in use, and replicates success from crew to crew.

- Shaped charge up to 30 grams
- Available in RDX / HMX
- Replaces the need for separate 3.125" and 3.375" systems
- Gun Swell less than 3.5" any phasing or length
- Available in 1-18 shots per gun

Every **PHIRE REFLEX** gun undergoes a rigorous quality control process within our state-of-the-art facility prior to being delivered to your wellsite utilizing the following:

- AUTOMATED ASSEMBLY
- X-RAY TECHNOLOGY
- VISUAL CAMERA INSPECTION
- QR CODE – TRACEABILITY
- ARTIFICIAL INTELLIGENCE
- MACHINE LEARNING

PHIRE REFLEX is compliant with all API and DOT specifications to drive safer, more efficient operations while removing people from the wellsite.

FEATURES

MAXIMUM RELIABILITY

Utilizing cutting edge machine learning, every assembly is inspected

AUTOMATED ASSEMBLY

Delivered fully assembled, including all explosive components

PRECISION PERFORMANCE

Repeatability regardless of crew experience

AUTOMATIC ARMING

Simply screw the guns together and the system automatically arms

FULLY DISPOSABLE

Brand new with each use & no redress

REDUCES HSE EXPOSURE

Lighter, shorter, and safer manual handling for all crews

RF SAFE

3rd Party RF Safe certified

APPLICATIONS

- ✓ Multistage, Multiwell Completions
- ✓ Horizontal and Vertical Wells in Unconventional Plays
- ✓ Limited-Entry Designs
- ✓ High-Efficiency Wellsite Completions
- ✓ Oriented Perforating Well Completions
